

Cat. No. 0498

Powerstrip-10

The Powerstrip10 is the latest addition to a family of Abeco made wire stripping hand tools. The Powerstrip10 is fully self-adjusting throughout its capacity, however, a provision has been made to rapidly adjust the ratio between the gripping and cutting jaws to allow for unusually 'tough' or 'soft' insulations and maintain fatigue-free operation.

In order to aid a high production rate, refinements have been made whereby the jaws close and re-open with one squeeze of the handles, releasing the wire and enhancing slug removal.

- **Replaceable Gripping Pads**
- **Lightweight One Hand Operation**
 - **Integral Wire Cutter**

Technical Specifications

Capacity:	
Stripping:	0.25 to 10.0mm ²
Cutting:	10.0mm ² max
Stranded	
Dimensions:	175 x 80 x 20mm
Weight:	150gms
