## UNI – STRIP

The Uni – Strip is available with two types of blades: the self centering 'V' type blades which are ideal for stripping tough and heavier insulated round cables, or the flat blades which are perfect for use with both single and multiple wires, with either round or flat conductors. Simple squeeze and pull action.

The sliding paired wedge, in the handle allows adjustment to different wire size. The Uni-Strip is also fitted with a wire length stop and a handle lock to keep the tool closed for storage.

With the integrated wire cutter the user can complete most wiring operations with one tool.

When ordering please specify the type of blades required:
