

Cat No. 0645

CS-25

The CS-25 will strip any length of outer insulation from round cables. A lever action swivels the cutting blade through 90° allowing circular and longitudinal cutting of the insulation. The cutting blade depth is adjustable up to 5mm and the tool is also fitted with a retractable ripping blade, triggered by a button close to the base of the tool - this aids removal of the split insulation.

The set of cable guides supplied extends the capacity of the tool to produce perfect results when stripping delicate shielded multi-core cables of irregular shapes, twisted pair and unusual insulations including PTFE, silicone rubber and polyurethane. The tool is supplied in an attractive case with 5mm, 8mm, 12mm cable guides and one blank to be drilled by customer as required.

- **Replaceable Cutting Blade**
 - **Lever Operated**
 - **Ripping Blade**

Technical Specifications:

Stripping : 5.0 - 25.0mm dia.

Cutting Depth: up to 5mm

Dimensions: 135 x 42 x 17mm

Weight: 75gms
