

Cat. No. 06806

### SPLIT-STRIP

This lever action hand tool is designed to remove any length of Kevlar reinforced protective sleeve from fibre optic bundles of between 2.5 and 6.5mm diameter. Correct positioning of the sheath is ensured at all times by sleeve guides, selected according to the sheath diameter. The tool cuts the Kevlar sleeve, first circumferentially and then pulled along it's sleeve creating two longitudinal cuts simultaneously for easy removal.

- **Accurate and Easy to Use.**
- **Circumferential and longitudinal cuts.**
- **Packed in a Smart Carry Case with a**

#### Technical Specifications
