

ZB TOOLS

FIBRE OPTIC PREPARATION TOOL

Cat. No. 06807

SILICA-STRIP

Easy to use stripping tool for fast removal of primary silicone coatings from optical fibres. The stripping blades are made of acetal and their permanently set angle brings the coating off smoothly when the tool is gently pulled along the fibre. The tool design ensures no damage to the light guide even when excessive pressure is applied during the stripping operation.

- **Damage Free**
- **Spring loaded**
- **Packed in Plastic Case**

Technical Specifications

Capacity:
Stripping: Fibre Optic leads from 15 - 3000 microns.

Dimensions: 110 x 52 x 14mm.

Weight: 30gms
