MADE IN EU

Alu - 1

The Alu Strip comprises two pair of semi-circular die blades mounted on either side of the stripping head.

The tool is pre-set for two cable sizes and the changeover between one size to another is instantly effected by a simple push-and-twist action of the knurled selector buttons.

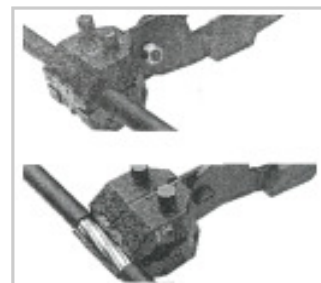

The Alu Strip is simple to use, accurate and fast and is ideal for use in confined spaces with limited access and may be used for cable ends as well as mid-span stripping.

All stripping blades are readily accessible for quick and easy replacement or renewal.

Simply clasp the cable between jaws and slightly rock the tool to effect a double circumferential incision.

Butt the cable against the wire stops and cut between incisions with the pair of nibbler blades mounted in the front of the tool.

Replacements blades available:

For stripping 25mm² & 35mm² cables - Cat. No. 068101

For stripping 50mm² & 70mm² cables - Cat. No. 068102

For stripping 95mm² & 120mm² cables - Cat. No. 068103
