

Cat. No. 0691**Strip – All**

This Flat mains Cable Stripper is designed for damage – free, fast and easy removal of all types of outer and inner insulation.

Complete stripping solution with an integral wire cutter

- **Inner & Outer insulation Stripping**
 - **Integral Slitting Blade**
 - **Built in Wire Cutter**

Technical Specifications:

Stripping: 1.0mm² - 10.0mm²

Cutting: 10.0mm² max.
multi stranded copper

Dimensions: 65 x 40 x 255mm

Weight: 330gms

Strip – All

Designed for the professional to strip the outer sheath and inner insulation from flat mains cable.

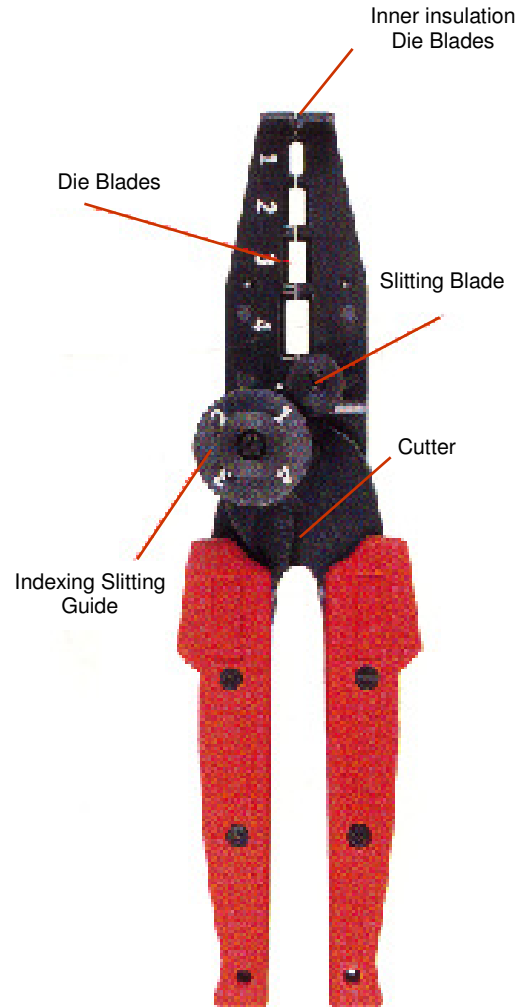

The cable is placed in the square aperture die blades and with a simple squeeze of the handles they cut through the outer jacket across cable axis. To slit the cable longitudinally, the cable is placed in the slitting guide and while holding the handles squeezed the tool is pulled along the cable. The depth controlled slitting blade will nicely slice through the insulation.

A pair of die blades are fitted in the front of the tool for the stripping of the inner round conductors from 1 to 10mm²

Also fitted with an integral cutter, the Strip–All is manufactured from high quality materials to withstand the demands of everyday use and provide the electrician with safe, fast and easy to use installation tool.

Front mounted die blades for stripping the inner insulation.

Outer Insulation Die Blades

- Aperture: 1. 1.0mm² – 1.5mm²
2. 2.5mm²
3. 4.0mm² – 6.0mm²
4. 10mm²

Other apertures to customer requirements available on request.
