

Cat. No. 080

**MK05**

This cable stripping tool has been specially designed for the preparation of from large diameter armoured cables and meet all requirements of heavy duty industrial and installation usage. Equipped with high speed steel fixed cutting blade and rotary wheel cutters which are rigidly and precisely mounted in interchangeable cartridges.

- **Large Capacity**
- **Circumferential - Longitudinal - Spiral Cutting**
- **Easily Interchangeable Cartridges**

Technical Specifications:

Capacity: 25mm – 110mm Diameter

Dimensions: 55 x 160 x 320mm

Weight: 520gms

Cable Stripper

Made from top quality materials to withstand heavy installation usage and give a long life with constant precision and reliability.

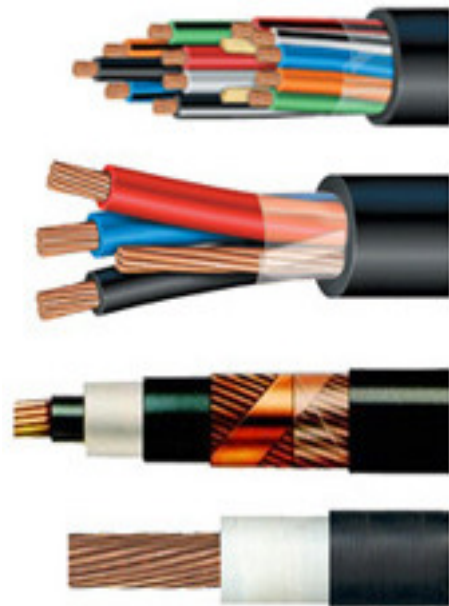

Specially designed to remove insulation from large diameter cables.

The tool is equally effective for mid-span and end stripping as well as for circumferential, longitudinal or in a spiral as required by simply twisting the cutting head into predetermined index positions.

There are two type of cartridges:

The fixed cutting blade cartridge (FC5) which can be adjustable for cutting depth. The 'V' shaped blade on this cartridge is mostly suitable for the removal the outer PVC, Rubber similar insulations.

The rotary wheel blade cartridges (WC5/...) which are capable of removing aluminium, lead and copper cladding, and aluminium and lead braiding. They have a predetermined fixed depth of cut which makes them also suitable for the removal of the semi-bonded screen from a variety of cables. There is a complete range of standard wheel cutting cartridges with cutting depths ranging from 1.2 to 4.0mm in step of 0.2mm. Other depths can be supplied on request.

The tools is supplied in a smart carry case with:

- One fixed blade cutting cartridge
- Three rotary wheel blade cartridges
- Cable diameter 'V' Guide reducers
- Complete operating instruction

Spares:

Fixed blade

Fixed blade cartridge (FC5)

Rotary wheel cartridge (WC5/depth)
