## Double Cut & Uni - Cut

These multi-purpose stripping tools remove XLPE (or similar insulation) and semi-conductive screens, (bonded or thermally shrunk) from power cables. The tools, are clamped over the cable, are self feeding and can be effortlessly operated with precise results. It's compact, yet heavy duty construction is highly suitable for work in confined areas. No special skill is required for setting these tools and changing from one operation to another. Each tool comes packed in a smart carry case with complete operating instructions.

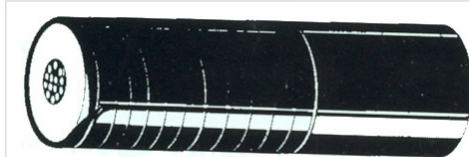

Cutting blade for the removal of XLPE insulation.

Shaving blade for the removal of bonded semi-conductive screens. Two blades are mounted opposite each other to obtain maximum marks free shave.

Scoring cartridge with controlled depth of cut rotary blade, for the removal of peelable semi-conductive screens (optional).
