

Cat No. 2011

MAXISTRIP 2000

Heavy duty self-adjusting wire and cable stripper for round wires, multi-core, and flat twin and earth mains cables. Wider stripping jaws from standard strippers makes it ideal for stripping of flat twin & earth PVC cables

Fully self-adjusting over the full capacity range with built-in wire cutter and gripping power regulator. Powerful one hand action grips and strips the wire, in one operation. Robust steel liners reinforced glass fiber - nylon construction with replaceable metal gripping pads.

- **Integral Wire Cutter**
- **Variable Gripping power**
- **Wider Stripping Jaws**

Technical Specifications:
