

**Cat. No. TM05950**

## SAFECRIMP MARINE

High grade stainless is used throughout the construction of this tool designated for use in very corrosive conditions and marine environments. Precision ratchet operated crimp tool with integral wire cutter. The tool maximizes the mechanical advantage in the crimp mechanism and will achieve full crimp pressure with a relatively low operating force.

- **Low Operating force**
- **Integral Cutter**
- **Rust proof**

### Technical Specifications

Capacity:	
Cutting:	10mm <sup>2</sup> Max Stranded Copper Conductor.
Crimping:	Up to 6mm <sup>2</sup> Terminals Up to 10mm <sup>2</sup> Ferrules (cord-end terminals)
Dimensions:	225mm(9") Long Frame
Material:	Stainless Steel
Weight:	410gms.

**Also available without cutter TM-05950M**
