

Cat. No. TS05950

SAFECRIMP STEEL

Conventional design made from high grade carbon steel, hardened to ensure long term quality. Precision ratchet operated crimp tool with integral wire cutter. The tool maximizes the mechanical advantage in the crimp mechanism and will achieve full crimp pressure with a relatively low operating force.

- **Low Operating force**
- **Integral Cutter**
- **Hardened Throughout**

Technical Specifications

Capacity:	
Cutting:	10mm ² Max Stranded Copper Conductor.
Crimping:	Up to 6mm ² Ins. Terminals Up to 10mm ² Ferrules (cord-end terminals)
Dimensions:	225mm(9") Long Frame.
Material:	Carbon Steel.
Weight:	550gms.

Also available without cutter TS-05950M
